

What is the CMTS Partnership?

The U.S. Committee on the Marine Transportation System (CMTS) is a cabinet-level partnership of 25+ Federal Government departments, agencies, and bureaus directed under statute to coordinate and recommend policies related to maritime transportation.

A Sample of Resources Available on CMTS.gov

General Information on the MTS:

- [MTS Matters Infographic](#) prepared for National Infrastructure Week.
- [MTS Fact Sheet](#) of current MTS facts and figures.
- [CMTS Annual Report \(2015-2016\)](#).
- [National Strategy for the Marine Transportation System \(2008\)](#), under revision.
- [Strategic Action Plan for Research and Development in the Marine Transportation System \(2011\)](#).
- [List of MTS related Federal Advisory Committees](#).
- [Compendium of Federal MTS Programs](#): This compendium and corresponding matrix identifies and briefly describes the contribution to the U.S. MTS of each of the Federal departments, agencies, and bureaus.

Subject Area Resources:

- [Federal Funding Handbook for MTS Infrastructure](#): This handbook is a single source of infrastructure funding programs available to MTS stakeholders.
- [MTS Performance Measure \(2015\)](#): This report summarizes an initial group of MTS performance measures developed from publicly available data sources and presented together for the first time.
- CMTS Resolution on the Adoption of the S-100 Marine Data Framework (2014)
- National Strategy for the Arctic Regional Implementation Plan Tasks:
 - [A 10-Year Projection of Maritime Activity in the U.S. Arctic Region](#)
 - [A Ten-Year Prioritization of Infrastructure Needs in the U.S. Arctic](#)
 - [Recommendations and Criteria for Using Federal Public-Private Partnerships](#)
